Facial Peel/Microdermabrasion

Consent form

- Stop using any products that may cause irritation to your skin 3 days before and 3 days after having your microdermabrasion or facial treatment.
- Do not work out or do anything that causes you to perspire for 12 hours after the treatment
- Avoid being in the sun at least 3 days before and 3 days after your treatment. Always use a sunscreen of at least 15 SPF or higher.
- If you have ever been treated for a herpes virus or are currently experiencing an outbreak, please let your aesthetician know. There are certain precautions that need to be taken to protect your skin.
- Inform your aesthetician of all recent surgeries, illnesses or any medications you are taking.
- This treatment is not recommended for anyone who has been diagnosed with Cancer, HIV/AIDS or any other type of autoimmune disorder such as lupus.
- This treatment should NOT be done during pregnancy, but may be done after the baby is born and during nursing.
- Please follow your pre and post microdermabrasion skin care instructions very carefully as it will effect the results of the treatment.
- You may experience some redness and sensitivity after the treatment that can last up to 24 hours. This is nothing to worry about, and is actually a positive response to the treatment.
- Please feel free to ask question at any time.

I hereby agree to all of the above and agree to have this treatment be performed on me. I further agree to follow all post-peel care instructions as I am directed.
