

Morpho-Lympho-Drainage

The Morpho-Lympho-Drainage (MLD) technique provides a new approach to aesthetics to increase the effectiveness and the results of facial treatments. Our objective is to apply personalized care with specific treatment, respecting each individual's morphology and its particular characteristics.

MLD has many functions:

- Stimulate the elimination of toxins and accelerate their transformation
- Fight water retention, rebalance fluids
- Favor cell renewal and cutaneous exchanges
- Regenerate the epidermis for a firm younger and healthier looking skin
- Clears inflammations such as acne and rosacea faster

Morpho : (Morphology) Hippocrates (460-337 BC) Classified individuals in 4 body types by studying the shape and external structures through a morphological analysis with respect to the individual's Morphology.

Lympho : (Lymphatic system)

Drainage : Helps the elimination and transformation of toxins.

**Erika, our aesthetician has been trained and certified in Morpho-Lympho-Drainage.
She is currently taking appointments for this excellent healing procedure.**

NEW DNA REPAIR FACIALS!

We are excited to introduce the newest addition to our facial treatments.

Our New DNA Repair facial includes the use of our new DNA Repair Formula. This DNA Repair Formula was formulated by AGI Dermatics. AGI Dermatics is the molecular biology laboratory that has led the research of DNA repair of the skin for more than 20 years. DNA Repair Formula was developed to fill critical voids in current skincare therapies, treat photo-damage to repair UV insults and help resist photo-aging. It speeds recovery from past damage, encourages the skin's DNA repair mechanism to self correct, and reduces the signs of collagen degradation.

We now incorporate this product into our current Medically Based Facials to give you maximum results in your skincare treatment. See Denise or Erika for details.

RECEIVE 10% OFF YOUR FIRST TREATMENT WITH THIS AD.

Dr. Baugh's Medically Based Facials

We now offer medically based facials and have designed specific step by step procedures to meet your individual skin care needs. All of our 9 facial treatments can be personalized according to your skin type which we establish during your initial consultation. We then refine your treatments as you progress so that your skin achieves optimum health.

We use our exclusive Physioderme product line from Switzerland for all of our facial treatments.

Our nine individual facials include:

- | | | |
|-------------------------------|--------------------------|--------------------------|
| 1. Oily/Acne/Combination Skin | 4. Sensitive Skin | 7. Rosacea/Acne Rosacea |
| 2. Dry/Dehydrated Skin | 5. Intoxicated Gray Skin | 8. Anti-Wrinkle |
